MDeverywhere Announces partnership with DrFirst

August, 2009 – MDeverywhere today announced a new partnership with DrFirst, the market leader in e-prescribing software solutions. MDeverywhere's technology will now offer a fully integrated e-prescribing solution which will assist our clients in improving healthcare and patient safety by delivering technologies that enable medical professionals and their staff to quickly and easily access critical medical information at the point of care. Additionally, MDeverywhere's palm-based charge capture technology will now guarantee compliance with Medicare's e-prescribing bonus program. MDeverywhere's e-prescribing solution automatically assigns and submits the appropriate g-code ensuring one-hundred percent compliance with the bonus program. Using this solution, MDeverywhere practices are guaranteed the 2% Medicare e-prescribing bonus.

"We are very excited to partner with DrFirst and we are confident that our practices will love the way we automatically assign the g-codes. Our doctors just write the prescription and the MDeverywhere software automatically does the billing", said David Fetterolf, MDeverywhere's President.

"MDeverywhere's approach to e-prescribing combines the natural benefits of improved patient safety and streamlined practice workflow with a valuable extra by ensuring that physicians will qualify for the federal incentives tied to electronic prescribing," said G. Cameron Deemer, President of DrFirst. "We are pleased to partner with forward-thinking companies like MDeverywhere to provide innovative solutions to physicians."

DrFirst, based out of Rockville, MD, is a national provider of physician connectivity services through its award-winning, SureScripts Gold Certified Rcopia electronic prescription management system. DrFirst understands that healthcare is an interconnected environment between physician practices, IPAs, hospitals, health plans, pharmacies and others. DrFirst provides healthcare solutions that deliver unique benefits to each type of association while achieving benefits for healthcare as a whole.

MDeverywhere offers a leading revenue cycle management solution for physicians. Its unique solution includes web-based practice management software, coding rules engines, contract monitoring tools and full-scope claims management and back-office services. MDeverywhere was founded in 1995 and currently serves over 2,500 physicians nationwide. Clients include solo practices, group practices and large faculty practices in more than 60 different specialties. MDeverywhere is headquartered in Hauppauge, NY with additional locations in Research Triangle Park, NC and Noida, India.
